Organization and Staffing

Biostatistics:

Theodore Karrison, PhD, Director Biostatistics
Laboratory & Research Associate (Assoc. Prof.)
tkarrison@health.bsd.uchicago.edu 702-9326

Dingcai Cao, PhD, Biostatistician
dcao@health.bsd.uchicago.edu 834-2654

Jeff Charbeneau, Biostatistician
jcharbeneau@health.bsd.uchicago.edu 702-2988

Melinda Drum, PhD, Research Associate (Asst. Prof.)
mdrum@health.bsd.uchicago.edu 834-0387

Dezheng Huo, PhD, Research Associate (Asst. Prof.)
dhuo@health.bsd.uchicago.edu 834-0843

Kristen Kasza, MS, Biostatistician
kkasza@health.bsd.uchicago.edu 702-7173

Emily Kistner, PhD, Research Associate (Asst. Prof.)
ekistner@health.bsd.uchicago.edu 834-4251

Masha Kocherginsky, PhD, Research Assoc. (Asst. Prof.)
mkocherg@health.bsd.uchicago.edu 834-8843

Rangesh Kunnavakkam, Biostatistician
rkunnavakkam@health.bsd.uchicago.edu 834-1415

Shang Lin, PhD, Research Associate (Assoc. Prof.)
slin@health.bsd.uchicago.edu 834-7615

Juned Siddique, PhD, Research Associate (Asst. Prof.)
siddique@uchicago.edu 834-4319

Research Computing Group:

Philip Schumm, MA, Director Research Computing Group & Biostatistician
schumm@health.bsd.uchicago.edu 702-0796

Michael Johnson, BS, Research Programmer
mjohnson@health.bsd.uchicago.edu 834-4463

Ted Pollari, BA, Research Programmer
tcp@uchicago.edu 834-0559

Location & Hours

The Department of Health Studies administrative offices are located in W-238 and are open Monday - Friday from 9:00 a.m. to 4:30 p.m.

The Biostatistics Laboratory is located in the Medical Center at the north end of the 3rd floor of the Mothers Aid Research Pavilion (MARP). The R-corridor 3rd floor can be accessed from Goldblatt 2nd floor by the staircase at the west end of the corridor near the entrance to the Dept. Ob/Gyn suite.

To schedule an appointment, please call 702-2453. Clinical Research Center and Cancer Research Center members are encouraged to contact their center administrator prior to scheduling appointments.

Phone (773)702-2453
Fax (773)-702-1979

The Department of Health Studies
University of Chicago
5841 South Maryland Avenue
MC2007

Academic Year
2007-2008

Theodore G. Karrison, Ph.D., Director

Revised 11/5/07
The Department mission is to increase and communicate knowledge that enhances health, reduces illness, and improves outcomes of health care.

Faculty interests include diagnosis and outcomes of treatment of prostate cancer; epidemiology of diseases among the elderly; Bayesian inference; meta-analysis of diagnostic test studies; statistical inference in the presence of missing data; clinical trials methodology; mental health and the economics of poor health habits; competing risks and multiple endpoints in survival analysis; and organizational structure and performance of health care delivery systems.

Consulting Fee Schedule

First two hours of collaboration:
No charge.

Grant preparation collaboration:
No charge when biostatistician has effort on the project budget when submitted.

Subsequent collaborative effort:
Billed as an hourly rate covering both personnel and non-personnel costs $85.00/hr

Percentage of effort on grant or contract (may not be less than 5% annually):
Percentage of salary and fringe costs as a personnel expense,
plus $145.00 for every 1% effort as a Biostatistical Support Fee (to cover project-related non-personnel expenses)

Grant & Budget Preparation

Per Divisional policy, written pre-approval must be obtained from the DHS Chairman or Lab Director before including a lab member on a proposal or grant submission.

When a biostatistician is named on a grant and a percentage of effort is listed in the personnel category, please budget as a line item a Biostatistical Support Fee, which is currently $145.00 per 1% of effort annually. This fee supports the resources the biostatistician will require for performing research work such as the cost of photocopying/faxing, paper for printing, office & computer supplies, software licenses, and telephone charges.

For example, if a biostatistician was named in a grant at 10% effort, the support fee would be calculated as follows:

$145.00 x 10 = $1,450 annually

Medical students, residents, fellows, and new investigators without funding sources are encouraged to call 702-2453 to discuss eligibility and process to apply for internal funding to cover consulting fees.
